SUMMARY

I am a Frontend Developer with knowledge of HTML, CSS, JavaScript, React, Next.js, Tailwind CSS, Git, GitHub, and SQL. I am currently building personal projects to strengthen my skills and showcase my knowledge.

I also have freelance experience, having developed and deployed the official website for La Última Llamada Church, focusing on best practices, SEO, and responsive design. I am a native Spanish speaker with advanced English and advanced Portuguese. I enjoy building clear interfaces, paying attention to detail, and deeply understanding the tools I work with.

PROFESSIONAL EXPERIENCE

Freelance Frontend Developer

03/2026 – 04/2026

<https://www.laultima llamada.org> 🔗

Remote

Designed, developed, and deployed the official website for Ministerio Cristiano La Última Llamada, creating a modern, responsive, and production-ready experience

- Developed and deployed the website from scratch, ensuring a fast, responsive, and smooth experience across mobile devices, tablets, and desktop computers.
- Implemented performance best practices and technical SEO, including metadata, Open Graph, JSON-LD, Google Search Console, and indexing.

PROJECTS

Personal Frontend Portfolio

<https://otoni-el-portfolio-omega.vercel.app/> 🔗

Personal portfolio developed with Next.js, Tailwind CSS, and GSAP, designed to showcase my projects, skills, and experience in a visual and interactive way. It includes a responsive interface, scroll-triggered animations, smooth transitions, and reusable components, with special attention to performance, accessibility, and user experience.

Minesweeper with Advanced State Management

<https://minesweeper-ts-topaz.vercel.app/> 🔗

Interactive game built with React and TypeScript, featuring dynamic board generation, recursive cell revealing, a flagging system, and win/loss conditions. Global logic is managed with Context API and useReducer, while Local Storage preserves progress between sessions.
